Versatile **Full-stack Developer** with 4+ years of experience building scalable web and mobile applications using React, PHP (Laravel), Node.js, and Firebase. Proven success in delivering robust solutions that improve system performance and user engagement. Recently gained hands-on experience in SCADA and industrial automation, with a strong foundation in software integration and product development. Seeking a challenging role as a Product & Solutions Engineer to combine my technical expertise with customer-facing problem-solving and innovation.
